PROFILE

As a passionate Full Stack Developer, I have studied a range of technologies for front-end and back-end development, including HTML, CSS, JavaScript, Bootstrap, ReactJs, NodeJs, and MongoDB. Additionally, my Master's degree in Computer Management has exposed me to languages such as C, ASP, SQL, and HTML. During my college years, I also worked on a project called Vehicle Automation System. After completing my studies, I did an internship at Edureka, where I worked on two real-time applications - Zomato and Flipkart - using all of these technologies.

EXPERIENCE

Intern at Edureka

Remote

📅 Sept-2022 To Feb-2023

After completing my post-graduation, I joined Edureka where I worked on two real-time applications - Zomato and Flipkart. I built clones of these applications using the ReactJs framework for the front-end, and NodeJs for the back-end, with MongoDB as the database.

EDUCATION

Master of Computer Management

Sant Gadge Baba Amravati University

📅 2020 - 2022   📍 Amravati
